

Animal Biology Qualifying Exam Disciplinary Areas

Below is an extensive (but not exhaustive) list of areas previously approved:

- Animal Behavior
- Aquatic Biology
- Avian Biology
- Bacterial Metabolism
- Behavior
- Biochemistry
- Bioinformatics
- Biostatistics
- Biological Modeling
- Cell Biology
- Conservation Biology
- Conservation Genetics
- Cytogenetics
- Developmental Biology
- Disease Ecology
- Ecology
- Embryology
- Endocrinology
- Entomology
- Environmental Science
- Epidemiology
- Exercise Physiology
- Fish Biology
- Gastrointestinal Physiology
- Gametogenesis
- Genetic Engineering
- Herpetology
- Immunology
- Ichthyology
- Mammalogy
- Mammary/Lactation Biology
- Microbiology
- Modeling Biological Systems
- Molecular Genetics
- Neuroscience
- Monogastric Nutrition
- Mucosal Immunology
- Muscle Biology
- Ornithology
- Quantitative Genetics
- Parasitology
- Pathology
- Pharmacology
- Population Genetics
- Reproductive Biology
- Reproductive Physiology
- Ruminant Nutrition
- Statistical Modeling
- Stress Biology
- Stress Physiology
- Systemic Physiology
- Systems Biology
- Toxicology
